

Part No.	HP	GPH of Water @ Total Discharge Pressure of 40 psi				Max. Pressure psi
		Max suction (shallow well)	Max Suction (deep well)	Max GPM (@0' head)	Max Discharge	
MA0462CJ-05	1/2	25 ft	49 ft	10 gpm	99 ft	40
MA0462CJ-07	3/4	25 ft	65 ft	12 gpm	115 ft	49
MA0462CJ-10	1	25 ft	82 ft	14 gpm	135 ft	58

Features & Technical Specifications

- Convertible pump for both deep well and shallow well.
- For 4" well or larger
- Heavy duty cast iron construction.
- Ideal for private well systems or low flow irrigation applications
- Dual 115V or 230V, pull the switch to set the voltage
- Copper impeller and cast iron ejector for heavy duty and long life.
- Include: pressure switch, ejector, venturi tube, nozzle
- Capacitor start and thermally protected for longer motor life
- For indoor use only, not for outdoor weather conditions.
- Not for automatic faucet operation.

Impeller is made of dynamically balanced copper, which provides accurate flow and long lasting product life.
